

## INGREDIENTS:

**UBIQUINONE** is an active form of the antioxidant coenzyme Q10 that efficiently shields cells from the adverse impact of free radicals.

**GREEN TEA LEAF EXTRACT** serves as a powerful antioxidant, slows down ageing processes.

**SEA BUCKTHORN EXTRACT**—95% of it is the ultimate antioxidant selenophenol that strengthens vascular walls and protects DNA cells.

**RESVERATROL** helps preserve DNA cells' integrity, prevents mutations at the cellular level and premature ageing. Refills immune reserves of the body.

**ASTAXANTHIN** protects the body from the UV-radiation, thus preventing photo-ageing and reduces the risk of sunburns.

**LYCOPENE** shields DNA cells, which can mitigate the risk of atherosclerosis. Contributes to maintaining normal potency in men, when it is affected by smoking.

**ACAI FRUIT EXTRACT (EUTERPE)** prevents damage of cells by free radicals, neutralizes them, decelerates ageing processes.

**CHLOROPHYLL** neutralizes aggressive impact of free radicals, purifying the body from carcinogenic and mutagenic agents.

**SELENOMETHIONINE** prevents atherosclerosis and alteration of cells, ensuring DNA protection and tissue regeneration.

**AMARANTH EXTRACT** is a vital source of plant proteins, essential to keep up the skin, that contains lysin acid, carotene, calcium, iron, microelements and vitamin C.

## RETAIN VIBRANCY OF THE YOUTHFUL APPEARANCE!

10 powerful antioxidants  
in a single well-balanced formula  
with a cascade action

- Facilitates natural rejuvenation of the whole body
- Protects from the impact of UV-rays (photo-ageing)
- Fights external signs of ageing
- Neutralizes free radicals

Only the best.  
Only from Europe.

## ANTI-AGE EFFECT

With the course of time our body deteriorates: the level of physical activity reduces, the immune system functions less efficiently, performance of the cardiovascular and other systems of the body gets impaired.

Withering of the body is an individual process, determined amongst all by genetic factors and a condition of all internals, as well as the lifestyle, ecology and mental state. Free radicals are the first to blame when it comes to ageing of the body. Negative impact of the UV-rays, pollutants and stress can most probably cause accumulation of free radicals within the body. They attack molecules of fats, proteins, sugars, and DNA, causing their oxidation. Gradually it impairs performance of all systems of the body: liver becomes less efficient in purifying the blood from toxins, which provokes appearance of pigmentation spots. Depositing of cholesterol inside the vessels hinders normal nutrition of cells and detoxification of the body. If the activity of fibroblasts—so-called “cells of youthfulness”—is reduced and there is a general deficit of wholesome substances, it provokes thinning of the skin, changes of the skin micro-pattern, wrinkles and distortion of facial shape. Metabolism slows down, the level of sex hormones reduces, which affects the condition of hair and skin. It also instigates deterioration of the eyesight and hearing, and gaining weight.

It is possible to retain natural beauty and youth: reverse the time with a new exclusive creation of the Vision company—a unique complex *LiveLon'+* with a powerful anti-age effect.

## FIGHT AGE-RELATED CHANGES

*LiveLon'+* complex facilitates systemic rejuvenation of the whole body and the skin in particular. The balanced *LiveLon'+* formula contains 10 ultimate antioxidants with a cascade action.

Ubiquinone, resveratrol, selenomethionine and chlorophyll are natural antioxidants within the *LiveLon'+* complex, which hinder ageing of the body, and shield the cells from free radicals; help preserve DNA cells' integrity and refill the immune reserves of the body. Green tea extract, astaxanthin and lycopene contain carotenoids, great antioxidants to protect the body from the UV-radiation and thus preclude photo-ageing. Extracts of sea buckthorn, acai berry and amaranth decelerate ageing processes, thickening vascular walls, and reduce

their fragility. *LiveLon'+* complex produces a systemic synergistic effect on all organs and tissues of the human body.

Exclusive complex *LiveLon'+* helps regain innate sheen and preserve natural dewy look!

## TARGET AUDIENCE TO TAKE LIVELON'+

Those who take care of their health

Those who wish to slow down ageing process

Those who experience prolonged physical and emotional strain

Those, whose skin is subject to a prolonged impact of the UV-rays

Those who don't adhere to the rules of healthy nutrition and snack on fast food

Those who drink alcohol and smoke
